This training is funded through the Oregon Department of Consumer and Business Services (DCBS) Building Codes Division 1% Training Program

Department of Consumer and Business Services
Building Codes Division

GREEN BUILDING AND THE BUILDING CODES

Green buildings and how they relate to building codes and regulations has become a major focus in the design and construction industry as innovative systems and standards continue to push the envelope on sustainability. This training brings together both the public and the private sector to learn about emerging green building technologies, identify code conflicts, and discuss solutions for overcoming obstacles to sustainable development within the context of safeguarding public health and welfare.

WORKSHOP OVERVIEW

- What is Green Building?
- Making Sense of Green Building Standards, Both Regional and National
- Green Building Technologies & Best Practices
- Code Barriers to Green Buildings & Opportunities for Addressing Obstacles
- Case Studies & Lessons Learned

WHO SHOULD ATTEND?

- Building officials
- Plans examiners
- Building inspectors
- Program managers
- Policy makers
- Community planners
- Public works
- Architects
- Engineers
- Contractors
- Land use planners
