RE: PLUMBING PRODUCT APPROVAL REQUEST—AGRUSAN POLYPROPYLENE-RANDOM-COPOLYMER (PPD) HOT AND COLD WATER DISTRIBUTION SYSTEM

REQUEST

Approval of Agrusan PPD piping system for potable hot and cold water distribution systems.

APPLICABLE CODE SECTIONS OR STANDARDS

1992 Oregon State Plumbing Specialty Code, Chapters 2 and 10; NSF Standards 14 and 61; CSA B 137.11-93; and ASTM D 256, D 1525-76, D 2565, D 2990, D 1238, D 638, D 3039, D 2146, F 877 and D 4101.

TECHNICAL AND SCIENTIFIC FACTS

Information submitted by the manufacturer shows that this product is manufactured of a material meeting the appropriate nationally recognized standards for potable water use and is constructed in a durable manner.

RULING

The materials and construction of this product are equivalent to that prescribed in the Oregon State Plumbing Specialty Code in quality, strength, effectiveness, durability and safety for potable water piping systems.

After consideration of the standards and interpretations of the International Association of Plumbing and Mechanical Officials and the Council of American Building Officials and related technical and scientific facts, the Plumbing Board approves this ruling.

(signed December 17, 1993)
Edward J. Gormley, Chairman
Plumbing Board

Date

The approval of the Plumbing Board is accepted and the rulings are adopted as stated.

(signed December 17, 1993)
Gary J. Wicks, Administrator
Building Codes Division
